

EASINGWOLD GALTRES CENTRE PITCH REFURBISHMENT

As many of the Advertiser readers will have noticed the Galtres Centre All Weather Pitch (or more accurately the Multi Use Games Area) full upgrade and refurbishment is now complete.

This new surface, although expensive, utilises the latest technology in artificial grass to reduce degradation by sunlight, is more hardwearing and will, hopefully, be easier to maintain and subsequently longer lasting. However, as with all things at the Centre, correct usage and maintenance is vital. For example, only clean trainers are acceptable as other footwear can damage the fibres. As the pitch is surrounded by trees the Centre has a maintenance programme in place along with volunteer assistance, to keep the surface debris free, which is needed throughout the year.

Several clubs and individuals regularly use the games area but there is plenty of scope, particularly during the day, to hire the facility. In addition, the Centre does currently offer tennis coaching for children with a fully qualified LTA coach. Any enquiries can be dealt with at the office in the Galtres.
